American Fork, UT 84003

Dear Mr. Hall:

RE: ML 46086-Metalliferous Minerals

I am in receipt of your letter of February 14, 1994, to Mr. Jerry Mansfield, about your mining operations on state land in S16, T6S, R24E, Uintah County. Mr. Mansfield is no longer with the division and I am assuming responsibility for administering this lease.

In reviewing the division files, I do not find any notice of intent filed by you to commence mining operations under this lease. The lease agreement requires you to notify the division at least 60 days prior to the commencement of operations to obtain an approved exploration/mining and reclamation plan. State law further requires that you notify the Division of Oil, Gas and Mining (538-5340) prior to commencing small mining operations within the state.

Please provide me with information as to when and how you have met the notification requirements. If you have not yet met the requirements then please immediately cease all operations upon the lands until you have obtained an approved exploration/mining and reclamation plan from the division.

Failure to comply with this letter within the next 30 days may subject this lease to cancellation.

I am enclosing a step by step guide to the required Division of State Lands and Forestry notification. The Division of Oil, Gas and Mining has a separate notification form which may be obtained by contacting that agency.

Sincerely,

JOHN T. BLAKE
MINERAL RESOURCES SPECIALIST
